Purchase five months of consecutive group lessons and get the sixth month free along with 10% off retail and inclusive access to all member events.

ANNUAL REGISTRATION FEE

\$40 per student

OUR POLICIES:

Our tuition is billed month-to-month. The first month's payment is due upon registration. Each additional month, your tuition is auto-billed to your credit card for the upcoming service. Aqua-Tots requires an annual registration fee; please refer to Aqua-Tots for pricing details. All monthly fees paid are non-refundable. Enrolment is ongoing; we require a signed 30-day Cancellation Notice to be completed and turned in to the front desk to end classes. Please refer to Aqua-Tots for complete policies.

Ask
AQUA-TOTS

Can I watch my child's swim lesson?

Of course! We ask that you remain in the school and enjoy our comfortable viewing area while your child is at Aqua-Tots. We have found that our students are the most confident when they are solely focused on their swim class.

How many days per week should my child take lessons to develop strong swimming skills?

We recommend 30-minute lessons, scheduled 2-3 days per week. Short-time, long-term lessons result in the best retention and mastery of skills because our curriculum is comprehensive, linking one skill to the next and building upon their success.

What happens if my child misses a lesson?

We know life gets busy, and sometimes lessons need to be rescheduled. If your child is going to be absent, please give us a call prior to their class, and we'll gladly assign a make-up lesson to your account to be used at a later date.

For more information about our Make-Up Policy, please refer to our Aqua-Tots Customer Policies and Procedures.

How quickly will my child learn to swim?

Each child's progress is unique and based upon factors such as comfort in the water, physical strength, coordination, focus and maturity. Like piano lessons or karate, a well-balanced swimmer learns skills in layers, and our instructors are tasked with helping each child progress as quickly as possible while maintaining the standards of our proven curriculum.
